If resubmission with corrected information does not correct the status, the loan cannot be processed through LPA and is not eligible. • Homebridge does not permit LPA Accept-minus Mortgage or Manually Underwritten Mortgages. Documentation: • The documentation level shown on the “last” feedback certificate (LPA Findings) indicates the documentation that Homebridge will accept. • If LPA provides for only obtaining a one (1) year tax return, Homebridge will accept; provided the Borrower is self-employed for at least two (2) full years AND the one (1) year return the Borrower is qualified on is the most current tax year. If the Borrower is on extension for the current tax year, this reduced documentation is not eligible.

(Does not name the creditors - Chase, Wells & Bank of America).

Guidelines									
Credit Scores	• Tri-merge report is required for all Borrowers. • Representative credit score used on each Borrower is; middle of 3, lower of 2 or 1 score (per AUS). ○ If 2 of the 3 scores are the same, choose the middle of the 3 scores ▪ For example: 700, 680, 680 = 680 or 700, 700, 680 = 700 • LP performs its own analysis of the credit report data, but in no case will credit scores be <620. • If there is only one (1) borrower, the single applicable score used to underwrite that borrower is the representative credit score for the mortgage. • If there are multiple borrowers, determine the applicable credit score for each individual borrower and select the lowest applicable score from the group as the representative credit score. • If there is a borrower on the loan who does not have a credit score, determine the representative credit score for the mortgage based on the credit scores of the other borrowers on the mortgage. • Loans where borrowers have a credit score made up of only medical accounts are not eligible. • If the borrower's credit information is frozen at one of the credit repositories for borrowers who have traditional credit, the credit report is still acceptable as long as: ○ credit data is available from two repositories, ○ a credit score is obtained from at least one of those two repositories, AND ○ a three in-file merged report was requested. NOTE: Loans for borrowers with credit data frozen at two or more of the credit repositories will not be eligible.

Credit – Borrower with Prior Homebridge Foreclosure	If the Borrower(s) on the loan application has a prior foreclosure with Homebridge: • The loan must be elevated to Homebridge for prior approval. Contact the Homebridge Secondary Marketing department. • A detailed memo explaining the reason(s) for the foreclosure is required. ○ The memo must include the factors that are considered the reasons for the foreclosure, as well as the monetary loss incurred by Homebridge. ○ The explanation should be for “extraordinary” situations, such as prolonged serious medical condition and/or death of a household wage-earner. • The loan must otherwise meet all FHLMC guidelines that apply for foreclosure.								

Guidelines	
Debt Certification	If it is discovered prior to purchase that a Borrower has taken on new debt after the Note date or has incurred new debt not considered prior to the Note date, the loan must be re-qualified.
Duty To Serve	• The Duty to Serve program improves access to mortgage financing for those of modest means in three specific housing markets that pose persistent challenges: Manufactured Housing, Rural Housing, and Affordable Housing Preservation. • If the borrower meets agency criteria for Duty to Serve, LLPAs may be waived. • The seller must select one of the following products: ○ FHLMC Duty to Serve 30yr Fixed ○ FHLMC Duty to Serve 20yr Fixed ○ FHLMC Duty to Serve 10yr Fixed • Conforming loan amounts only.
Escrows/Impounds	• FHLMC does not require escrow accounts except with respect to the collection of borrower-paid mortgage insurance and when required by applicable law. • The Seller's determination that escrow accounts are not required must be based on the evaluation of the Borrower's ability to make all payments for the expenses to be paid under the mortgage as they become due. These expenses include, but are not limited to, taxes, special assessments, ground rents and other charges that are or may become first liens on the mortgaged premises, as well as property insurance premiums. • The Seller may not waive the requirement for escrow accounts with respect to collection of borrower-paid mortgage insurance and when escrows are required by law

Escrow Waivers

Homebridge allows for the waiving of escrows, depending on the loan type, the LTV, and the borrower(s) financial ability to pay the lump sum payments of taxes and insurance.

- Homebridge allows for the partial waiver of tax and homeowners insurance escrows. However, if a waiver is chosen for:
 - Taxes – all taxes must be waived. For example, a borrower may not waive county taxes and escrow for school taxes.
 - Insurance – all insurance (hurricane, wind, etc.), except for flood, must be waived.
- Flood insurance escrow waivers are not permitted
- For subject properties not located in CA, Homebridge does not allow for the waiving of escrows when a loan requires mortgage insurance, regardless if the mortgage insurance is lender paid or borrower-paid.
- For subject properties located in CA, an escrow waiver is permitted if the LTV is < 90%.
- Escrow deposit accounts for ALL refinance transactions where the current year or prior year taxes were sixty (60) days or more delinquent and are being included in the new loan amount may not be waived.
- Any conflict between Homebridge policy and state law must default to the state law.

Refinances – Escrows/impounds cannot be waived if the new loan amount includes the financing of real estate taxes that are more than sixty (60) days delinquent, unless requiring an escrow account is not permitted by applicable state law or regulation.

Guidelines		
Mortgage Insurance LTV Determination for New York State	Under a New York statute, a mortgage insurer must issue mortgage insurance based on a determination of the “fair market value” of the property. The term “fair market value” is not defined in the statute but has been defined by the NY insurance regulator as being the “appraised value”. The following table identifies the value calculation that is to be used for mortgage loans secured by properties in New York for policies that are based on the LTV ratio.	
	LTV Ratio Calculation	Policy
	LTV ratio based on the appraised value	- Seller must base their determination of when mortgage insurance (MI) is required solely on the appraised value of the property. If the appraised value exceeds the sales price, this determination may result in MI not being placed on the mortgage loan as would otherwise be required using FNMA’s standard definition. - If this calculation results in MI not being placed on the loan as would otherwise be required, The Seller must deliver the loan to FNMA using the MI Absence Reason Type of “No MI Based on Original LTV” (Sort ID 429).

	LTV ratio based on the lower of the sales price or appraised value (standard LTV ratio calculation) for all property types	• Irrespective of the use of appraised value or sales price for determining whether MI is required, the standard LTV calculation must be used to determine the level of MI coverage that is required on the mortgage loan. (See MI Coverage Requirements for additional information). • The standard LTV ratio calculation must also be used to: ○ Determine whether the loan satisfies any of FNMA’s other eligibility criteria that are based on the LTV ratio of the loan; ○ Determine any loan-level price adjustments that include LTV or CLTV ratios as a risk attribute; and ○ When the loan is delivered to FNMA (Sort ID 254). The standard LTV ratio must be delivered, even if the appraised value or sales price is used to determine that mortgage insurance is not required.

Guidelines	
Non-Purchasing Spouse	- Only the debts of those who will be on the Note are required to be included in the debt-to-income ratio. - In community property/marital rights states, the non-borrowing spouse does have an interest in the property and is required to execute the security instrument and all applicable documents as determined by state law.
Power of Attorney	Please refer to the FHLMC Selling Guide POA Requirements. The original Power of Attorney must be shipped to: Homebridge Financial Services, Inc. Attn: Warehouse 99 Wood Avenue South, Suite 301 Iselin, NJ 08830
Prior Mortgage Fraud	- Homebridge will not purchase any loan when the borrower(s) or any interested parties in the transaction have been previously convicted of mortgage fraud. - There are NO exceptions.
Properties Financed with Homebridge	At the time of purchase, Homebridge will limit our exposure to four (4) finance properties including the subject property. If the Seller has a loan file will result in exceeding the financed four (4) properties, prior approval from Homebridge must be obtained.
Social Security Numbers - Multiple	- The social security number (SSN) on all loan file documents must match. In addition, the Seller must review the additional social security number(s) section located on the borrower's credit report. - If there is any variance of SSN within the loan file or if there are any additional SSNs appearing on the credit report, the Seller must provide documentation of satisfactory resolution.
Tax Exemptions / Abatements	- There can be no uncertainty about whether the borrower qualifies for the homestead, abatement or other tax exemption or reduction. - For the lower amount to be used for qualifying purposes, evidence the abatement, homestead or exception is unconditionally approved prior to the first mortgage payment for a purchase transaction or is in effect for a refinance transaction and remains in place for a minimum of five (5) years after closing is required.
